

# REMO ROZARIO

## PERSONAL PROFILE

A driven software developer, seeking to use proven Python skills to deliver coding excellence.

Extensive experience in architecting, designing and developing ML/DL.

## AREAS OF EXPERTISE

- Python, SQL experience
- Machine Learning, Deep Learning, Natural Language Processing
- HTML, CSS
- Django
- AWS

## OTHER SKILLS

- The ability to analyze complex technical information.
- Can analyze, design and implement database structures.

## DOMAIN EXPERTISE

- Jupyter Notebook, SQL, VSS, PyCharm
- Webpage designing

## PLATFORMS

Expertise in Linux and Windows platforms.

## SPECIALIZATIONS

- Database, Git, Debugging.
- Numpy, Pandas, SciKit Learn, Matplotlib, Keras, TensorFlow.
- SQL Lite, PostgreSQL.

## GET IN CONTACT

**Mobile:** +91-8590612986

**Email :** remo.rozario@yahoo.com

## PROJECTS

### SMS Spam Detection

- Split the data as train and test
- Predicted the given data by applying Logistic Regression
- Learned basic NLP tasks and used a machine learning classifier to predict whether the SMS is spam or not.

### Pizza Price Prediction

- Pizza price is predicted with the given data by applying Linear Regression.

### Price prediction using Linear Regression, Polynomial Regression.

- Building Keras models, Diagnostic Plot, Predictions.

Preprocessing data and loading data.

## CERTIFICATION

DATA SCIENCE WITH PYTHON | 2021-2022

## WORK EXPERIENCE

### SOFTWARE ENGINEER

2020-2023

## EDUCATION HISTORY

### ANNA UNIVERSITY

Bachelor in Computer Science and Engineering

### HSC

M.S.M Higher Secondary School

### SSLC

St. Aloysius Higher Secondary School
